Education

University College London (UCL) – BSc Natural Sciences | Expected Jun 2027

2024– 2027

- Organic Chemistry and Biomedical Sciences; electives in Python
- Selected modules: Statistical Machine Learning for Biosciences, Programming for Scientists, Advanced Organic Chemistry

St Marylebone CE School

2016– 2023

A Levels (2023): Mathematics (A), Chemistry (B), Economics (B)

GCSEs (2021): 10 GCSEs grades 9–7, including Mathematics (9) and English Language (7)

Experience

Rolls-Royce – Intern

Bristol | Sep 2026

- Analysed a production-planning case, developing a capacity-feasible schedule while balancing constraints, deadlines and delay costs
- Explored procurement and supply-chain decisions across raw materials and finished parts, considering cost, supplier, quality, risk and delivery
- Gained hands-on exposure to aerospace engineering and MRO, including engine assembly and turbine manufacturing
- Presented a production recovery plan to Rolls-Royce stakeholders, balancing customer priorities, capacity constraints and delivery risk

KPMG – Global AI Strategy Insight Programme

London | Sep 2025

- Analysed AI applications across consulting, audit, tax and advisory, assessing the impact on business processes and client delivery
- Evaluated automation opportunities and data workflows, assessing practical considerations for enterprise AI implementation

Legal & General – Retail Protection & Actuarial Insight Programme

London | Aug 2025

- Analysed healthcare claims data in R to assess insurance risks linked to obesity treatments and pharmaceutical trends
- Presented findings to senior stakeholders, translating R analysis into implications for underwriting, product risk and insurance strategy

Panmure Liberum – Economics & Equity Research Insight Programme

London | Jul 2022

- Researched macroeconomic trends, equity markets and sector performance, producing market briefings alongside the Chief Economist
- Analysed economic developments and company-specific news to assess potential implications for markets and investment decisions

Projects & Case Studies

Athlete Portfolio Website

Sep 2026

- Designed and deployed a responsive athlete portfolio showcasing race results, performance progression and media coverage
- Structured performance data and external race resources into a clear promotional website

Travel Planning Web Application

Sep 2025

- Developed a travel-planning application integrating destinations, flights, accommodation and transport in one platform
- Designed a dynamic itinerary workflow for organising multi-location trips, flights, accommodation and transport

Corporate Technology & Audit Simulations | Deloitte & KPMG Virtual Programmes

Jul 2025

- Deloitte: Built Python scripts for data reconciliation and proposed dashboard recommendations using commercial datasets
- KPMG: Performed revenue analytics, audit risk assessment and financial account verification using Excel

Skills

- Programming & Data: Python (NumPy, Matplotlib, data structures, OOP, debugging), R
- Analytics & Business: Excel (pivot tables, data analysis), Tableau, PowerPoint
- Languages: English (Native), Mandarin (Conversational)

Additional Experience

Independent Gap Year – CHENGDU, CHINA

Jun 2023–Sep 2024

- Worked full-time to self-fund international travel and a 3-month Mandarin immersion programme in Chengdu
- Independently planned travel, accommodation and study logistics across Asia while managing a personal budget

Retail employment – OHHO & Buns from Home

London | 2023–Present

- Delivered high-volume customer service in fast-paced hospitality environments, supporting smooth team operations

Achievements & Interests

- Achievements: Grade 8 Piano (Distinction); Royal Academy of Music Composers Club; Wigmore Hall performer; Silver Industrial Cadet Award
- Interests: Badminton, volleyball, running and hiking; completed the UK Three Peaks Challenge within 24 hours; Mahjong
